

FAASTeam presents:

The Inside Scoop on Flying at Night

The presentation will discuss the upsides and downsides to flying at night. Dennis will review pilot night requirements, rules and the more in-depth requirements of planning ,pre-flighting and some of the common safety issues when working under the darkness of night.

The presentation will also review the airport information found on sectional charts, pilot procedures, including emergencies at night and some of the aero-medial concerns unique to night flying.

For additional information visit the Washington Pilots Association Spokane Chapter Website. Prior to attending this event please review and abide by current CDC, State and Local Health Guidelines.

In person seating is Limited to 50.

A Live Stream option is available and can be viewed using the Zoom Meeting link below.
